onofre	4
trestles	4
Index	5

create_postcard	<i>Create a new postcard</i>
-----------------	------------------------------

Description

Create (and optionally edit) a new postcard.

Usage

```
create_postcard(  
  file = "index.Rmd",  
  template = "jolla",  
  create_dir = FALSE,  
  edit = TRUE,  
  create_image = TRUE  
)
```

Arguments

file	File name for the draft
template	Template to use as the basis for the draft. This is either the full path to a template directory or the name of a template directory within the rmarkdown/templates directory of a package.
create_dir	TRUE to create a new directory for the postcard (defaults to FALSE).
edit	TRUE to edit the template immediately
create_image	TRUE to create a placeholder image (defaults to TRUE).

Details

Valid values for the template argument include "jolla", "jolla-blue", "trestles", and "onofre".

Examples

```
## Not run:  
  
postcards::create_postcard(template = "jolla")  
postcards::create_postcard(template = "jolla-blue")  
postcards::create_postcard(template = "trestles")  
postcards::create_postcard(template = "onofre")  
  
## End(Not run)
```

jolla	<i>Jolla website template.</i>
-------	--------------------------------

Description

Jolla website template.

Usage

```
jolla(css = NULL, includes = NULL)
```

Arguments

css	One or more css files to include
includes	Named list of additional content to include within the document (typically created using the includes function).

jolla_blue	<i>Jolla Blue website template.</i>
------------	-------------------------------------

Description

Jolla Blue website template.

Usage

```
jolla_blue(css = NULL, includes = NULL)
```

Arguments

css	One or more css files to include
includes	Named list of additional content to include within the document (typically created using the includes function).

onofre *Onofre website template.*

Description

Onofre website template.

Usage

```
onofre(css = NULL, includes = NULL)
```

Arguments

css	One or more css files to include
includes	Named list of additional content to include within the document (typically created using the includes function).

trestles *Jolla Blue website template.*

Description

Jolla Blue website template.

Usage

```
trestles(css = NULL, includes = NULL)
```

Arguments

css	One or more css files to include
includes	Named list of additional content to include within the document (typically created using the includes function).
